

Bagger Discharge Extension

Part # 750373 Right Hand
Part # 750374 Left Hand **36" Bagger Discharge Extension**

The Bagger Discharge Extension Kit extends the discharge conveyor on the Mark 50 Bagger by 36".

This improvement gives enough distance after the tyer to leave several printing or labeling devices set up in place. **No more need to roll one device out and set up a different one, just turn off the device that's not in use.** It also allows sufficient space for a tamper proof option to be added on your Burford Tyer.

**This Kit comes complete with
installation instructions and diagrams.**

We are s/l/i/c/e/d bread!
