

Slicer Air Clutch Kit

Part #30992

Slicer Air Clutch Kit

This kit increases your **production performance** and is a **safety feature**.

The air clutch disengages the slicer conveyors to assist with double loaf elimination and keep the bagger and slicer in perfect timing.

The air clutch can also be used as a torque overload so that it will disengage whenever resistance is felt on the conveyors

This kit includes the following items:

- **Clutch with shaft**
- **Crumb shield**
- **Cam type air valve**
- **Filter, regulator & oiler**
- **Operating solenoid**
- **Mounting brackets**
- **Installation instructions & diagrams**

We are s/l/i/c/e/d bread!
